Description

We mainly offer 2 kinds of solid carbon fiber sheets. The first is a quasi-isotropic carbon fiberboard consisting of 90-degree and 45-degree fabrics. Another style is non-quasi-isotropic, where twill weaved is in the direction of 0°/90°. XC carbon fiber sheets are all made by 100% carbon fiber fabric imported from Japan. Flawless weave on different surfaces for option including plain weave, 2x2 weave, glossy and matte. These are colorful carbon sheets with silk, which have a clear weave on the surface.

Feature

Reviews

Hello Jenny, received the parts yesterday, the cutting and quality is really good thank you, 

all the carbon im going to be cutting will be painted, it looks really really good and customers want it. 

The cutouts are great! No issues with them. All the dimensions are cut to size
