
Carbon fiber tubing for sale

Description

Our carbon fiber tubes are all manufactured by our own production workshops, the performance, and quality under our control. They are ideal for automation robotics, telescoping poles, FPV frame, because of the lightweight and high strength. Roll wrapped prepreg carbon fiber tubes including twill weave or plain weave for outer fabrics, unidirectional for inside fabric. Additionally, glossy and smooth sanded finish are all available. The inside diameter ranges from 6-60mm, length is normally 1000mm. Generally, we offer black carbon tubes, if you have demand for color tubes, it'll cost more time. If it doesn't match you need, please contact us directly for your custom specifications. And if you're also interested in our production process of carbon tubes and finished products show, below are the whole video introduction:

Feature

- 1.High Strength, Light Weight, Enviromental,Durable Nice Surface, Fashion
- 2.Low Coefficiency Of Thermal Expansion,High Temperature Resistance
- 3.Good Ternacity, Good Toughness,Low Coefficiency Of Thermal Expansion

Application

1. Aerospace, Helicopters Model Drone ,UAVS, FPV,RC Model Parts
- 2.Manufacture Fixtures And Tooling, Industrial Automation And Robotics
- 3.Sports Equipment,Musical Instruments,Medical Device
- 4.Building Construction Repair And Strengthening
- 5.Car Interior Decoration Parts, Art Products
- 6.Others
