

Customized carbon drag washer Fishing Reel Accessories

Specification	
Surface	Coarse Surface
Color	Black
Density	1.8g/cm3
Material	carbon fiber +Middle fiberglass
Dimension	400 x 500 mm
Thickness	0.5,0.8,1.0mm or customized

Description

Carbontex drag washers have many advantages such as high-temperature resistance, friction resistance, and hardness. They are the great replacement for generation washers, application of suitable drag grease is recommended when installing these carbon drag washers.

They are easily operated and better than other types of resistance washer materials to maintain heating performance. The whole carbon drag washer sheet(400x500mm) and the machining pieces are both available, we usually use the micrometer to measure its thickness to ensure accuracy.

Feature

Wear resistance, low noise, waterproof, corrosion resistance, etc.

Application

Fishing reel, blanket, felt, etc.

Reviews

Hello Jenny, received the parts yesterday, the cutting and quality is really good thank you, 

all the carbon im going to be cutting will be painted, it looks really really good and customers want it. 

The cutouts are great! No issues with them. All the dimensions are cut to size
