
Carbon fiber countersink drill holes/counterbores

Specification	
Pattern	Twill, Plain
Surface	Glossy, Matte
Line	3K Or 1K,1.5K, 6K
Color	Black; Gold, Silver, Red, Bue, Gree(Or With Color Silk)
Lay Up	3K+UD+3K,3K+Fiberglass+3K, Full UD, Full 3K
Material	Japan Toray Carbon Fiber Fabric+Resin
Dimension	Custom
Thickness	0.2-60 mm
Net Weight(g)	200g/sqm -360g/sqm

Description

A countersink is a conical hole cut into a manufactured object, we offer complex countersink drill holes on carbon fiber sheet, just send us your drawing in DWG, Step. All the machining parts are controlled by our CNC technicians, and both tolerance and surface quality are strictly inspected by the quality inspection department before shipping the goods. Integrated CNC machining enables us to help our customers produce parts efficiently. Just send us AutoCAD files in form of DFX, DWG or solid works files if any demand.

Feature

- 1.High Strength, Light Weight, Environmental, Durable Nice Surface, Fashion
- 2.Low Coefficiency Of Thermal Expansion, High-Temperature Resistance
- 3.Good Tenacity, Good Toughness, Low Coefficiency Of Thermal Expansion

Application

1. Aerospace, Helicopters Model Drone, UAVS, FPV, RC Model Parts
- 2.Manufacture Fixtures And Tooling, Industrial Automation And Robotics
- 3.Sports Equipment, Musical Instruments, Medical Device
- 4.Building Construction Repair And Strengthening
- 5.Car Interior Decoration Parts, Art Products
- 6.Others

Reviews

Hello Jenny, received the parts yesterday, the cutting and quality is really good thank you, 

all the carbon im going to be cutting will be painted, it looks really really good and customers want it. 

The cutouts are great! No issues with them. All the dimensions are cut to size
